PAHMA rate \$139 *plus tax*, while rooms available

WHO SHOULD ATTEND: This conference is designed for all levels of experience and years of service for your maintenance & management team.

YOU DON'T WANT TO MISS THIS SESSION !

DID YOU KNOW that more than 4,500 workers lose their lives on the job every year? At LSCI, we strongly believe in OSHA's mission "to prevent work-related injuries, illnesses, and deaths". We have seen first-hand that companies who properly manage their workers' safety & health through OSHA-required safety training and programs are seeing lower injury rates and are positioned to operate more efficiently, through increased worker retention, lower risk of OSHA citations, and decreased workers' compensation claims.

During this Jobsite Safety & Health breakout session, we will discuss some of the most prevalent hazards that maintenance personnel are exposed to, OSHA requirements for workers, and ways that you and your team can recognize hazards and prevent future injuries. The training session will focus on high-hazard areas such as: Fall protection, Ladder Safety, Confined Spaces, and Personal Protective Equipment.

WRAP UP: Open session time for Questions and Answers.

Meet our Speaker: SCOTT RAYMOND, Senior Safety & Health Consultant & Trainer, Lancaster Safety Consulting, Inc. (LSCI). LSCI's family-based business continues to earn its reputation as a nationwide leader in providing occupational safety and health consulting services and onsite safety training. As a proudly established OSHA VPP Star site, we aim to create innovative safety practices for our company and our clients. We consistently meet and exceed our clients' expectations with hard work and positive attitudes. The team of professionals at LSCI are devoted to providing our clients with their best safety consulting expertise to unravel difficult occupational safety challenges.

Scott Raymond is a knowledgeable, versatile, and committed member of LSCI's team of safety and health professionals and brings with him more than 30 years' health & safety experience in a diverse range of industries. He specializes in safety management and environmental compliance and holds a Master's Degree in Environmental Science from Miami University and a Bachelor's Degree, B.A. in Geology/Earth Science from Wittenberg University and many certifications. Scott's passion is safety, and he shares a common goal with LSCI and OSHA – making it possible for every employee in the United States to return home from work safely every day.
