

SAFETY AND HEALTH IN THE HOUSING INDUSTRY: A safety and health-based session focusing on issues that building and housing managers face. The session will be a half day and consist of topics that include ways to build a strong safety culture within the organization. Attendees will develop awareness on personal protective equipment, electrical hazards, emergencies, lithium batteries, lead, mold, asbestos, opioids, accident prevention, working alone, job competency, fall hazards, and safety leadership.

Presented by: Mike Rubeo, Lancaster Safety Consulting, Inc (LSCI)

Senior trainer Mike Rubeo has performed hundreds of safety trainings, both online and in person; conducted on-site toolbox talks, site specific job inspections, site audits; JSA development, OSHA safety programs; assisted clients with OSHA recordkeeping requirements, forklift and aerial lift certifications, respiratory fit testing, noise monitoring.
